Hongkong, March 6th, 1911.

Ir is unfortunate that at a time when the Representative of Portugal at Peking is again in negotiation with the Chinese Government with the object of securing a settlement of the vexed question of the boundaries of Macao that occasion has been given for the little demonstration of force referred to in the notes from our Macao correspondent which we published Saturday. Chinese telegrams report that the Portuguese Charge d'Affaires is actually on the way to Macao for the purpose of reopening the negotiations which were "interrupted" two years ago, when Sir JOACHIM MACHADO and the Chines, Commissioner, after protracted discussion in Hongkong, failed utterly to reach an agreement. Presumably the present negotiations are to be with H.E. the Viceroy of Canton. It may also be presumed that the reopening of negotiations implies a willingness on both sides to abate their claims to some extent in the hope of reaching a settlement of a question which, since the Tateu-maru affair, has been a growing source of trouble. The latest incident which has called forth a little show of forcelby Portugal and brought four Chinese river gunboats into the vicinity of Macao to watch events, relates to what the Macao authorities regard as "neutral interred in the Roman Catholic Cemetery territory," or a sort of buffer strip Happy Valley yesterday, numerous friends at

understand, that any "neutral zone" ever existed. They point out that all this so-called neutral ground is beyond the Porto do Cerco, which the Macao to the contrary, the Sun Hing Steamship Co., authorities regard as marking the limit of Portuguese territory, and the Chinese back Company will be dissolved. up their contention by asking why the so-called neutral zone does not extend for an equal distance on the Portuguese side of their boundary marks. It appears that the Chinese authorities sold or leased a large plot in this so-called neutral zone to a Chinaman for the sum of twenty thousand dollars, and as it was the purchaser's intention to cultivate it, he marked off his plot with a low wall or palisade. The Portuguese authorities protested against this erection, but as the Chinese do not admit that there is a neutral zone, they apparently paid no heed to the demand for the demolition of the hedge or wall as it is variously called. Consequently with a view to insisting on the preservation of this belt of land as a neutral zone the day last took steps to demolish the structure of Hough, Ho Fook, W. Hutton Potts, The death of both the patient and the Government of Macao on Friday and Saturture, Chinese female labour being employed R. Packham, F. C. Barlow, E. Jones Hughes, for the purpose, owing, it is said, to men P. R. Wolff, W. S. Brown, J. Robinson and not being procurable for the job. At the same time the Portuguese fort, in the vicinity was reinforced in readiness for any emergency that might arise. Happily there was no fighting to be done, but the incident is one about which much will doubtless be heard in connection with the negotiations which are about to be re-opened for the delimitation of the boundary. It is much to be regretted that the Chinese Government did not see its way to refer the dispute to the Hague Arbitration Tribunal when this course was suggested two years ago by the Portuguese Special Commissioner. However, a settlement obtained by friendly negotiation between representatives of the two Fowers is likely to be regarded as more satisfactory by both sides, and it is to be hoped that the confidence which inspires the re-opening of the interrupted negotiations will be justified by the results. How far the growing frequency of these international disputes has been responsible for the declining trade of the port it is not easy to sav, but it is notorious that business is leaving the Colony, and if the tendency continues it will not be long before Macao ceases to be a trading centre even for dried fish, which seems to be the only trade of importance now left to the Colony. Six firms engaged in this trade, we learn have recently transferred to another port in freights to the line, while on the other hand we states that there is a growing antithe Delta. At the same time Macao is are in a position, if we receive due consideralosing favour as a residential district for tion from the Government, to deal with wealthy Chinese, who are being attracted to export cargo efficiently and cheaply. But it the new port of Heungchow which it is now recognised can never become a port of commercial importance, but is being steadily developed as a residential district for the class of Chinese who have heretofore been attracted to Macao. The future of Macao is by no means bright, but a settlement of the irritating boundary dispute might do much towards arresting the ten-

COMPANY MEETING.

HONGKONG AND KOWLOON WHARF AND GODOWN CO., LTD.

The twenty-fourth ordinary annual meeting of shareholders of the Hongkong and Kowloon Wharf and Godown Co., Ltd., was held at the offices of Mossrs. Jardine, Matheson & Co., Ltd., on Saturday. The Hon. Mr. H. Keswick presided, and there were present: Sir Paul Chuter, J. W. C. Bonnar, G. Friesland, W. Siebs (directors), Hon. Mr. E. Osborne (score-A. E. Griffin.

The Scoretary having read the notice convening the meeting, The CHAIRMAN said: - Gentlemen, -- With your permission I will take the Report and Accounts as read. The profit on working again shows an improvement on the previous year, notwithstanding that our earnings remained practically the same. This result is due to measures of economy which have continued to be enforced, and which were commenced three years ago when it became evident that the Company's establishment, enlarged year by year to meet what appeared at the time to be the growing trade of the port, was in reality more than sufficient for the reduced business which actually eventuated. Two items in the Accounts perhaps need explanation, viz... the transfer of \$50,000 from Reserve Fund and \$40,000 from Insurance Fund. You will remember that after the typhoon of 1906 we wrote up the book value of Wharves, Lighters &c., by the amount spent on replacing those which were destroyed—a course we at that time. felt justified in following on account of the low value at which they stood in the books. The in Japan. final payments on account of typhoon damage having now been made, these transfers become necessary for the purpose of re-adjusting book values to a figure as nearly as possible to to-day's true values; ty which is meant, original cost after writing off 5 per cent. annually for depreciation. The Kowloon-Canton Railway is a factor which should some day affect us very considerably; and if the joint interests of ourselves and the Railway are treated in a broad-minded manner, we shall certainly be able to facilitate the bringing of large inward should be a sine que non that the Government meet us as generously as possible in laying in sidings to our wharves and thereby conducing to the benefit of all concerned. This is a matter which must have the very earnest attention of your directors. I fear, I hope it is without grounds, a disposition on the part of the Authorities to utilise the large and costly Hung Hom reclamation - paid for out of Railway funds-for the purpose of wharves andwarehouses in competition with ours, even possibly to the extent of establishing Government godowns, and this at our expense. I say advisedly at our expense. because we have paid for our own, we are also being heavily taxed for the Government's reclamation, and further expenditure thereon for wharfage purposes would put us in the final and desperate position of paying for our own execution. We are all aware that the \$10.000 which she received from the day of monopolies is passing, and we do not look for exclusive nursing, but in view of the fact that it is Hongkong money and energy

that has built up our undertaking, we cannot

be considered unreasonable in asking that the

Hougkong Government should give us a full

measure of its support. (Hear, hear.) Our

business is essentially one which prospers with

the prosperity of the port and vice versa. We

have all had bad times lately, and when you

take that, and the typhoon visitation, into mind,

I think you will agree with me that our

secretary and manager has done exceedingly

SHIELD FOOTBALL.

Three matches in the Shield competition were played off at Happy Valley on Saturday crowds of interested spectators lining the different grounds.

H.K.F.C. C. NAVAL YARD. Considerable interest centred in this match

owing to the keen game which resulted between the teams in their previous Shield tie, when a draw was the result. On Saturday, however, the Yarders had matters much their own way, and the civilian team were unable to with tand the well-organised attacks of the Naval Yard forwards. In the first half Sullivan and Watking each registered a goal for the Yard, and in the second moiety Sullivan again scored. Final: Naval Yard, 3 goals; H.K.F.C., nil.

ROYAL ENGINEERS V. RIGHT HALF E.O.Y.L.I. The sappers were in good form on Saturday and proved a superior team to the representatives of the right half of the Yorkshire regiment, who were defeated by two goals, the final score

being: Royal Engineers, 2 goals; K.O.Y.L.I. R.G.A. v. K.O.Y.L.I. (LEFT HALF.) The replayed tie between the R.G.A. and the lefthalf K.O.Y.L.I. was decided on the H.K. Club ground on Saturday before a good attendance. Both toams had changes from the sides doing duty the previous week. The teams lined up as follows :- R.G.A .: Beasley, Hudson and West, Ryan, Bagnall and Richards, Driver, Ausell, Watts, Burt. and McGuinness. K.O.Y.L.I. -Wright, Stangroon and Shepherd, Brailsford, Young and Dewick, Harris, Bryan, Andrews, Palmer and Vickers. The R. G. A. had the wind in their favour the first half, but this did not deter the K. OY.L.I. from early assuming the offensive. The Artillery backs were very

unreliable and let the opposing atlack in time after time, the alertness of Beasley alone averting the downfall of the R. G. A. citadel. Vick. ers was responsible for a fine effort, tricking several players and finishing up with a shot that Beasley was just able to put round the post. The Gunners were the first to score, Watts getting pessession and making no mistake with a drive close in. Bryan opened the scoring on behalf of the K.O.Y.L.I., Palmor adding a second just before the interval, which arrived with the score 2-1 in favour of the Yorkshiremen. The Left Half had matters all their own way in the second half and added two more goals, The first one was the result of a corner, the Artillery goalkeeper turning the ball into his own goal in an endeaveur to tip it over the bar-The second goal was the best of the match-Palmer sending in a lovely shot from the left which gave Beasley no chance of saving. The K.O.Y.L.I. thus won by 4 goals to 1. For the winners Palmer and Vickers were most conapicuous and were always dangerous, whilst Young, at half back worked like a Irojan. The losers were best served by Bagnall, Richards and Beasley.

BOXING.

If the fights which are to take place in the City Hall on the 11th instant do not prove successful the fault will not lie with the promoters, who are carrying out arrangements in connection with the forthcoming tournament with praiseworthy energy. The principals, too, are preparing for the fray, Seaman Heaps, who is to clash with Taff Carter, has been doing good track work at Happy Valley for the last couple of weeks and feels confident of his prospects. Kid Marriott, who is just recovering from an injured foot, will train at the V.B.C. on Wednesday and Thursday evenings. Ernie Coyne. ex-featherweight champion, will prepare the "Kid" for his fight. Harwood is going strong and trusts to add another victory to his excel. lent record. He and Chalk will don the mits at the V.R.C. this afternoon and to morrow.

RELIEF FOR MP. R. E. BELILIOS.

Relief was granted by Mr. Justice Bucknill. in the King's Bench Division, last month, to Mr. R. E. Belilios, the defeated Unionist candidate in the Walworth division, and to Mr. George Handsham, his election agont, for failing to make a return of the election expenses within the prescribed period, the delay being due to a series of accidents.

The application for relief was supported by counsel on behalf of Mr. Dawes, M.P. for Walworth.

RANDOM REFLECTIONS.

The typhoons about which we have received notice during the week have not had any ap parent effect on the Colony further than the disturbance of our atmosphere, bringing to an end the long spell of glorious bracing weather and introducing the damp clammy days associated with Spring here. Still, it has to be realised that rain is much needed. The reservoirs are low and the grass is no longer green.

empting to io work which the companies think should be left to them, and competition of this able Mr. A. M. Thomson (on leave), the Honkind is not appreciated. The Hon. Mr. Keswick presiding at the "Dock" meeting on Monday, ourable Sir C. P. Chater, Kt., C.M.G. regretted the action of the Government in setting up a repairs workshop as not only being unnecessary and extravagant, but as also depriving the Dock Company of a share of work which they might reasonably expect. The same gentleman presiding at the meeting of the Wharf and Godown Company voiced the apprehension that the Company might have the Government as a competitor, a prospect which is anything but Washington, and by the Standard Oil Company. pleasing. Had the Government undertakings It was decided to leave the question in abeyance been successful in the past there might have at present. been some justification for entering on new enterprises, but as the experience has been the reverse it is to be hoped that better counsels will prevail in the future, and that Punch's advice to those about to marry will be seted upon in respect of certain visionary schemes which we hope will not materialise.

When one remembers the ennui which is so characteristic of Hongkong the continued regarded as surprising indeed. A few enthusiasts have managed to rouse a certain amount of interest in the cultivation of the beautiful in nature and the useful, but I am afraid that as long as people prefer tennis courts to flower or vegetable gardens the development of the exhibition under the auspices of the Horticultural Society is not likely to be remarkable.

The nuisines about which Mr. Looker complains in the Press as existing near his residence has, I am told, served a useful purpose. The smell in question is not only long established, but it is distinctive, and it so happens that when the weary wayfarer on the Peak is seeking to find his way home under cloudy conditionssuch as after a good dinner when the polar star is not in view and the hillside is enveloped in mist -this smell serves as a guide. When it assails the nostrils of the belated European he knows exactly where he is. It is like a compass by which he can take his bearings. One gentleman in discussing the subject became quite indignant at the prospect of its removal-What, he asked, does Mr. Looker propose to Sir T. nekson, Dr. Cantlie, Mr. Gershom put in its place? Such is the influence of a Stewart, M.P., and Dr. Miers. week of the Follies.

started at Home whereby the Maries subscribe creation of a Selection Board in London for for a present to the Queen. The scheme was mooted by the Duchess of Montrose, herself a Mary, and related to the beautiful Queen of services of the Board, which already selects for Scots, whose "four Maries" formed a pretty episode in the stirring life of that unfortunate Queen. I see that the movement has spread to Singapore. Why should not the Maries of Hongkong also join? There are plenty of Marys, Maries, Marions, etc., to raise a respectable sum amongst them. Perhaps some of our local ladies interested will give the scheme the necessary start. I see the Georges are also invited to share in a coronation gift to the King. They ought to be proud of the opportunity. Lloyd George might plication by Mr. Crowfoot for the appointmen like to head the list.

I see that attempts have been made to obtain American subscriptions to the Hongkong University, but without success. Why not try our old friend Carnegie? He might come forward with a scholarship for those Europeans whose birth here makes them ineligible for his bursaries in Scotland.

The selfishness of the average young Eng. lishman is the plaint of a lady writer in one of the Home journals. She suggests that the young English bachelor is spoilt, that he takes tea with his lady friends, tells them of the novels he has read or the plays that he has seen, and nothing more happens. Though bound by cartain laws of hospitality, he never requites the favours received, in short, he is given to "sponging." This may be true of a certain table by Sir H. Mody. The Chairman referred type of young men, but fortunately the genus to the fact that the Building Committee had classes of China had earned for integrity, and is practically unknown in Hongkong, where mixed bathing, mixed tennis, mixed sailing even, and other pleasures enjoyed in common make for a better understanding between the

The man who insists on one or two cigarettes before tiffin or dinner had better beware. That eminent medical journal, the Lancet, has declared that "Smoking just before meals is to be deprecated, because the pungency of the pyroligneous products contained in tobacco smoke renders the buccal mucosa insensitive to alimentary stimulation-in fact, their effect is to dull or abolish the olfacto-gustatory reflex, thus depriving us of 'appetite juice."

Apparently there is no limit to the possibili ties of conscription in Germany. A daughter of the Fatherland is advocating that conscription should apply to girls, who should be compelled to serve as nurses, cooks, laundresses and in other occupations supposed to be feminine. It might work, but I have my doubts. Most people are agreed that women should as far as possible be kept out of the horrible associations of war.

RODERICK RANDOM.

HONGKONG UNIVERSITY. PROGRESS OF ARRANGEMENTS.

We have been furnished with the following copy of minutes of the meeting of the Committee of the Hongkong University held on the 28th December, 1910: - Sixteenth meeting. Present: His Excellency the Governor, the Honourable Sir. F. H. May, K.C.M.G., the Honourable Mr. A. W. Brewin, the Honourable Mr. W Chatham, C.M.G., the Honourable Dr. Ho Kai, C.M.G., the Honourable Mr. Wei Yuk, C.M.G. Several local companies seem to be watching the Right Reverend the Bishop of Victoria, the Government with considerable apprehension. Sir H. N. M. dy, Kt., Mr. Murray Stewart, Mr. They fear the advent of the Government in at- A. Turner, Mr. E. A. Irving, Mr. C. Clementi and Mr. Lau Chu-pak. Absent-The Honour

> NO SUBSCRIPTIONS FROM AMERICA. 1. The Chairman referred to the discussion which had taken place at the 13th meeting on the subject of laviting American subscriptions, and the recognition if any which would be accorded if they were very large in amount. Dr. Ho Kai informed the Committee of the two unsuccessful applications which had been made to Mr. Rockefeller's "Educational Board." by Dr. Wu Ting Fang, Chinese Minister to assured him of his continued interest in the

ourable Mr. H. E. Pollock, K.C., and the Hon-

THE SUBSCRIPTION LIST.

2. It was agreed that the nominal list of subscribers should be printed in 8ve pamphlet form, subscriptions of less than \$20 or £2 not being shown separately.

THE ANATOMICAL THEATRE.

3. A list of subscription by Chinese Guilds to a separate fund for the building of the Anatomical Theatre totalling 818,581 was laid on the table. Dr. Ho Kai and Mr. Brewin informed the Committee that the amount in hand had now reached \$20,000, and \$23,000 | Memorandum," which he has made and which success of the Flower Show in our midst must be | was in view. Dr. He Kai stated that Mr. Fisher (who had drawn the plans for the original building when its erection had been contemplated by the Hongkong Colle e of Medicina) estimated that the new building should not cost more than \$25,000. Dr. Ho Kai undertook to discuss the plans with the Principal Civil Medical Officer and Dr. Claik (Secretary, College of Medicine) and submit them at an early date to the Committee for consideration. The Chairman proposed, and it was upenimously agreed, that the building should be undertaken without delay at a cost not exceeding \$25,000. The building sub-committee undertook to su; ervise construction as in the case of the main University buildings.

FINANCIAL.

4. It was unanimously agreed that Sir P Chater be invited to resume his position as Treasurer of the University Funds, now that he had returned to the Colony. It was further agreed that it was advisable that the Treasurer should invest the cash balance at the Bank as soon as possible.

REPR. SENTATION IN LONDON.

5. The hairman moved and Sir H. May seconded a proposal to invite a certain number of gentlemen in London to represent the Hongkong University Committee in England. proposal was carried ananimously and the following names were agreed upon :-- Mr. J. H. Scott.

SELECTION OF STAFF. 6. The Chairman referred to papers which Most of my readers are aware of the movement | had been circulated to Members relative to the advising as to applications for appointment to the Staff of the University. He explained that Sir John Struthers had offered to place the Educational appointments on behalf of the Colonial Office and Iudia Office, at the disposal of the Hongkong University, while Dr. Miers, Principal of London University, had also kindly offered to form a strong Selection Board. The Chairman suggested that the matter was one which should be dealt with by the Council and Senate of the University when those bodies are created. It was agreed that the cordial thanks

of the Committee should be conveyed to Bir J

Struthers and Dr. Miers, but that it was at

present premature to deal with the matter 7. The Chairman further referred to the apof Principal, and to ther applications which with their testimonials had been circulated, and suggested that though it was premature to select the Staff at present, it would be advisable to inform Mr. Crowfoot (who seemed a likely candidate) of the approximate date on which a Principal would be appointed, in order that he might maintain his candidature. After some discussion it was agreed that, provided the buildings were completed by February, 1912, as anticipated by the probitect, the University might be opened in August should be appointed about January Ist. 1912. Applicants for appointments other than that of the Principal might be informed that no posts would be filled until about June, 1912, at new developments in the Far East, the matter was left for the decision of the Court and Council.

THE PRINCIPAL'S RESIDENCE 8. The attached statement by the contractors for the University buildings was laid on the condemned the site selected for the Principal's house. Sir H. Mody concurred in this cheers. view and suggested that the Principal should live at the Peak. The Committee were, however, unanimously of opinion that he should live in a quite close to the University precincts in order to maintain discipline and supervision. It was agreed that small committee consisting of Sir F. Lugard, Sir H. May and Mr. Chatham should meet Mr. Bryer, the architect, on the ground and examine the alternative sites proposed, and submit their proposals to Sir H. Moly and the Committee it being understood that Sir H. Mody was only pledged to the cost involved by building on the

A TEMPORARY REGISTRAR APPOINTED. 9. The Chairman proposed that a temporary "Registrar" should be appointed as from 1st January, 1911, to take charge of correspondence and papers relating to the University on a salary of \$75 per mensem. He explained that he was himself willing and anxious to devote no less time than heretofore to University work, but the correspondence had now become somewhat voluminous, and it was time that the Colonial Secretary's Uffice should be relieved of it. It was unanimously agreed to appoint Mr. Irving, pending the creation of the office of Registrar by the Incorporating. Ordinance, and the substantive appointment of any other gentleman by the Council. ACCOUNTS.

10. A Statement of Accounts made up to December 31st, 1910, was laid before the Committee.

THE UNIVERSITY INCORPORATION BILL. 11. At the last two meetings of the Committee the Ordinance for the Incorporation of the University had been considered in detail and a reprint had been circulated with all the proposed amendments shown in the margin. The Hongkong College of Medicino had submitted various further amendments, and in addition there were many which the Governor desired to make (some of which had arisen ont of discussion in England). The Chairman informed the committee that after disonssion with the Rector and the Secretary of the College of Medicine, he had carefully revised the whole Ordinance, which was now in the hands of the Crown Solicitor (the original draftsman) and would be reprinted very shortly. He proposed that a Committee consisting of himself, Sir H. May and Messra. Pollock, Stewart and Clementi should take the matter in hand on behalf of the Committee, so that the Bill might be introduced into the Legislative Council at an early date, where any contentious points would be fully debated. It was advisable that the Court and Council should be created as soon as possible, so as to deal authoritatively with the many questions now arising. The motion was agreed to. CHINESE SUBSCRIPTIONS.

12. Dr. He Kni reported that, in conjunction with Messrs. Tso and Au Chak Man (members of the Chinese sub-committee for collecting subscriptions), he had visited Shaughai, when the Vicercy Chang Jen Chun had project, for which it had been his intention to raise a subscription in his new province, had cost of the Nanking Exhibition. He hoped that | watershed between the Shweli river and after China New Year he would be able to da. so. Dr. Wu Ting Fong had promised to head the subscription list with a large sum, and several other gentlemen had promised to contribute a similar sum between them, so that the prospects of substantial help from Nanking and Shanghai seemed very good. The Chairman moved and Sir H. May seconded a vote of thanks to Dr. Ho Kai and the gentlemen named for their efforts on this tour, and to Dr. Ho Kai for the Chinese translation of the "University has been printed and widely circulated by the Chinese Committee.

THE DEGREE QUESTION. 13 Sir F. Lugard reported to the Committee that while in England he had had many discussions with the Authorities of the London University regarding the granting of their de-There was no difficulty except as regards the medical degree, and the London University were most agains to meet the wishes of the Hongkong University in this question also, even to the extent of modifying the existing regulations. The papers on this subject had been circulated for information of the Committee, but it was a matter for the Council, Senate and Faculty of Medicine to consider later. He moved "that the Committee of the Hongkong University desires to record its appreciation of the assistance which has been so readily accorded by the Vice Chancellor, the Principal, the Chairman of the External Committee, Sir Ed. Busk, and other authorities of the London University, and its recognition of the immense value to the Hongkong University in its early years which will be derived from the System of External Degree Examinations conducted by the London University" and further that a copy of this Resolution be sent to the London University. Sir H. May seconded and the motion was carried unanimously. Sir F. Lugard further stated that he had sent an appeal for funds to 73 leading London and provincial papers, but the result so far had been very small. In Peking he found a quite surprising enthusiasm for and interest in the scheme, especially among the "returned students,"

LETTEES. 14. Letters were laid on the table from Sir A. Bigge on behalf of the King, and from Mr. Chamberlain, also extracts from letters from H.E. Chang, Vicercy of Nanking, Mr. J. H. Scott and others.

F. D. LUGARD. Hongkong, December 31st, 1910.

MR. CHIROL ON FAR EASTERN

PROGRESS. Mr. Valentine Chirol was the chief guest at the annual dinner of the Oldham Chamber of Commerce, which was held in the Town Hall. Oldham, last month. Mr. J. E. Newton, President of the Chamber, was in the chair, and among those present were Mr. Alfred Emmott. M.P., and Mr. Barton, M.P. Mr. Emmott, in proposing the toast of "Our Guests," said that Mr. Chirol had performed a great service to the Empire in writing his book about the Indian unrest. Mr. Chirol, who had been asked by the Chamber to speak of the Far East, referred in his reply to the progress made by Japan. He said that he would not discuss whether the policy of Protection was or was not a wise one for Japan. The fact nevertheless remained that the Japanese had been the first nation in Asia who had been able to assert both the September, 1912, and that the Principal will and the power to challenge the economic ascendency of the West. He believed that the I great industry of Lancashire had already to some extent felt the consequences of earliest. The Committee were of opinion that gathered from the representations made by that the University should have two Sessions, but Chamber to Sir E. Grey last year that Lan cashire considered the tariff worthy of serious consideration. Were they to look for a similar transformation in China, with similar consequences? The events of the last few years pointed only in that direction. Mr. Chiroluleo spoke of the reputation which the commercial his remarks on the subject were greeted with

KAISER TO VISIT POPE.

The Frankfurter Zeitung of February 7th states that it is assured on excellent authority that the Kaiser, when passing through Italy next month on his way to Sicily and Corfu, will visit the Pope. Should this statement turn out to be true, his Majesty is pretty certain to inform the Pope of the feeling of irritation prevailing among large sections of his subjects with regard to the action of the Vatican against German Modernists.

According to the well-informed Munic Neueste Nachrichten it is the immediate intention of the Pope to issue two further pastorals dealing with the position of the clerg and the relations of the clorical journals to the In the first of these the Pope forbids the

participation of his clergy in all business undertakings. There will also be a paragraph for bidding clergy to wear garments other than those prescribed by Church laws. Another paragraph will forbid the clergy visit restaurants and places of amusement unless provided with a special licence from the

With regard to clerical newspapers the new pastoral provides for a committee of council in connection with the editorial offices, whose business it will be to see that nothing of a dangerous nature is published in these journals

THE BURMA-YUNNAN BOUNDARY DR. MORRISON'S ACCOUNT OF THE TROUBLE

A brief statement published in The Times recently announced that the "Yunnan Viceroy is perturbed by the presence of a British force in the long-disputed territory on the Yunnan-Burma border where outlaws have been giving trouble." The dispute, writes the Peking correspondent of The Times, is one of some standing, and in view of the ill-considered were the evils of their principles. The good was reports telegraphed by the Vicercy of Yunnan to the authorities in Poking and the credence given to them by the Chinese Press, an explana-

tion is desirable. In 1894 and 1897 conventions were concluded between the Governments of Great Britain and China providing for the delimitation of the frontier between Burma and Yunnan. In pursuance of this agreement. Joint Commissions from both countries during 1898-190 surveyed and demarcated the whole frontier with the exception of a distance of rather more than 220 miles lying between the meridians 98 and 99 E. longitude, and extending from latitude 25.35

N. to 28.20 N. The British Government claim that the boundary north of the point 25,35 N. reached not been for the financial crisis and the by the Joint Commissions should follow the Irrawaddy until the head waters of the Shweli follow the watershed between the Irrawaddy and Salween basins as far as the confines o

THE COMMISSION OF 1905. In March-May, 1905, a Joint Commission conducted by the late Mr. Litton, the British Consul in T'engyueh (one of the inland treaty ports of Yunnau), a Chinese official, the Taotai southern portion of the territory as far as the village of Itpimaw (Chinese Pien Ma) in latitude 26, on the western slopes of the watershed between the Salween and the Irrawaddy As a result of their inquiry the British Government were satisfied that there was no effective Chinese- admini-tration west of the proposed which a record of the commerce is available, are boundary. Certain semi-independent native slightly more than double those in the 15 months chiefs, of whom the Tong-Kong chief was prior to the action of the American Congressin the best known, living on the east or Chinese making the Payne bill a law. Comparing the side of the proposed boundary, were in the ten months of the calendar year 1910, January habit of receiving dues from certain villages 1 to October 31, all of which was under the new lying to the west or Burness side of the tariff law with the corresponding months of the boundary. The British Government offered to | calendar year 1908 all of which was under the give compensation to these chiefs for the dues old law, the figures are: exports from the that they would no longer be permitted to Philippine Islands to the U. S. during the first.

frequently been overstopped by the native the calendar year 1910, P30,733,786; imports chiefs residing in what is admittedly Chinese | from U.S. to the Philippine Islands during the territory. Uncertainty as to the future has first ten months of 1903, P15,864,208, in the engendered unrest among the natives tribes and corresponding period of 1910, P32,994,114. disaffection has been spreading. To put an end The 1910 figures thus practically double those of to this anomalous condition of things the Indian | 1908 in both exports and imports. The fear Government have recently occupied the small which those favouring the new trade relations strip of land as far as Hpimaw on the Burmese had was that as a result of American goods side of the watershed claimed by them as the coming into the Islands free of duty, there proper boundary and have stationed a force would be such a falling off in customs receipts adequate for the maintenance of order at as to cripple the government financially. Such Humaw. The district is peopled by Lisus, a las not been the case. The increase during the native race cognate with the Loles of Western fiscal year 1910 of the internal revenue collec-Yunnan. They are primarily spirit wor- tions was more than double the decrease in shippers, but have adopted in certain locali- customs collections, so that instead of a falling ties the tenets of Chinese aucestral wor. off, the receipts have been larger in the fiscal ship. With them marriage is a primitive form year passed than in any year since the establishof marriage by capture, but they have recently ment of American authority in these Islands. introduced in certain localities Chinese marriage customs. In dress they preserve their own method of doing the hair, their native embroideries, and beadwork. Comparatively few have adopted the Chinese custom of plaiting the hair. Hpimaw is within 14 days' journey of Tengyneh, at an altitude of 7,000ft. above sea level, and is encompassed by mountains whose thickly-wooded slopes provide excellent timber much in demand at Tengytich and other Chinese towns for the making of Chinese coffins. On the Chinese side of the boundary there are many Chinese villages and abundant evidence of prosperity. The roads are partially paved, and good stone bridges have been built over

many of the streams. It is much to be desired that the two Governments should proceed as soon as possible to the sottlement of the dispute. An undefined boundary is a perennial source of trouble to both

THE LESSON OF TIBET.

SIR F. YOUNGHUSBAND ON PEACE AT ANY PRICE.

Sir Francis Younghusband read a paper on "Lamaism in Tibet" before the Sociological wise legislation and conservative business meth-Society at the Royal Society of Arts last month. He said that so deeply did their religion enter | made to bloom as no other part of the Far East. into the lives of Tibetans that he could not help studying it during the negotiations of 1904, though the Dalai Lama had sent him a message to say that if he insisted on going to Lhasa the Tibetan religion would be destroyed, and he, the Lagra, would die. Lamaism was a development of Buddhism, and its central idea was omic development is practically a virgin one, peace—almost peace at any price. For a long time and the conditions surrounding it ideal the Tibetans had orders not to fire on the British. and when in the end, after nine months' fighting tion to agricultural and industrial progress occurred, as the Tibetans afterwards told him, their generals had no intention of fighting, should be directed to bring this about, for until they were with the troops, and if they had meant their troops to fight they would not be established. The geographical location have refired a day's march to the rear. The idea of peace permented the lives distributing centre for goods consumed in the their actions, and this was to a large extent due | cent countries need. The conditions and possi to Lamaism. In their early history they were bilities are ideal for building up a tremendous warlike; they carried their arms to the capital commerce. It requires nothing more than of China and held sway to the borders of India. wise legislation and well-directed effort and the But Buddhism gained such a hold that a King expenditure of not more than the same amount of Tibet in the Eight Century had enacted of energy that is given to building up similar that there should be no distinction between poor and rich, and it was said three times compelled the wealthy to share their riches, but each time all returned to their former condition. As the power of the Lamas increased the inclination for war decreased. But while the people had secured a considerable enjoyment of peace they had only done so at the price of their independence, for being unable to resist aggression they had to depend on the protection of China, missionary in China, pleaded "Guilty" at the which, in return, deprived them of their foreign possessions. Theoretically, this should have upon three boys under 13 years of age. suited their desire for religious contemplation, but human nature asserted itself, and the Tibet- tion of the crimes was the fact that they were ans wanted not only peace but free lom also. committed under the cloak of religion. He had They could have one or the other, but not both | before him letters in which this appeared to be

or in a passive way. They had adopted half measures, alternately swayed by the desire for peace and the love of independence. They might, under the protection of the Chinese have remained scoluded in absolute peace. But the pursuit of peace had led to sloth and ineffectiveness. Lamaism taught the wickedness of taking life, yet the Lamas enjoyed a good meat dinner and excused themselves on the ground that the butchers were Mohammedans, and that as the animal was killed there was no harm in eating it. They would not hang or shoot a human being, but would leave him to starve, and would torture him in a revolting manner. Such evident in the tameness of all animal life in Tibet, and there were other good results in the absence of caste and the freedom of women. Absence of caste made for sociability. The people were ready to sit and converse for hours, and as a rule were gentle and polite, the very humblest joke affording them infinite amusement. Lamaism encouraged sloth, sapped the virility of the people, deadened intellectual growth, and fostered superstition. But it had not stifled sociabili-And now that the Tibetans were as anxious for intercourse as they were formerly opposed to it, there was hope that renewed contact with India would revivify their stagment life.

PHILIPPINE PROGRES?.

A BANKER'S VIEWS ON TECENT

Speaking at Manila recently, Major .P. G.

Eastwick, local manager of the International Bank, alluded to the closer commercial relation between the Philippines and U. S., made possible by "the Payne" bill. Trade between river are passed, whence the frontier should the United States and the Philippine Islands. he said, has practically doubled since the enactment of the present tariff law; which permits an interchange, free of duty, of practically all articles passing between these islands and the United States. The total value of exports to the U.S. from the Philippine Islands during the first fifteen months' operation of the Payne bill amounted to over 481 million pesos, against 23 million pesos during a like period immediately preceding the enactment of that law, while Shih, and Mr. Leveson, I.C.S., examined the the imports from the U.S. to the Philippine Islands during the 15 months amount to over 461 million peros against 25 million peros during the same time immediately prior to its

Thus the experts to the U.S. in the 15 months since the enactment of the law; for ten months of the calendar year 1908, SURVEYING The boundary thus claimed by the British has P16,292,476; in the corresponding months of

NEVER SO PROSPEROUS.

While the foreign trade of the Philippine Islands increased by 30 per cent, the trade between the Philippines and the United States increased by slightly over 100 per cent. This is the result of about a year's application of one of the benefits given to the Philippine Islands in furtherance of the altruistic policy of the home government. The increase in business goes far to justify the most optimistic believers in the development of the Philippine Islands under the Stars and Stripes. I think I am safe in saying that the year 1910 has been the most prosperous of any since the establishment of the present government. While business may be slower in comparison during 1911, there is nothing in the situation to cause uneasiness, and with care the basis upon which credit rests can be placed upon a firmer foundation, and the Islands continue to grow in prosperity. The recent passage by the Assembly of the negotiable instrument law, as now in force in 38 States of the Union, is I think, a step taken by the Filipino people in the right direction towards the accomplishment of their great desire. Even those who object to Angle-Saxon laws must admit-if they are good citizens - that under them these Islands are commencing to show buds of prosperity. By ods and customs these islands can in time be The present and the future must rest upon public virtue and intelligence. Principle, not sentiment should rule the government under which we live

A VIRGIN FIELD.

Finally, the Major said :- The field of econif the people will devote their greatest attenand put politics in a secondary place. All efforts that is accomplished full political freedom canof the Islands make them the possible future the people and profoundly influenced Orient. They produce many things that adjaindustries elsewhere to make this farthest outpost of the United States the most important commercial centre in the Far East.

> SERVITUDE FOR A CHINA MISSIONARY.

William Alexander Wills, 56, lately a Baptist recent assizes in London to indecent assaults Mr. Justice Avory said the greatest aggrava-

at the same time. They sent missions to Russia, the case. Letters written in such circumstances and as a result they became embroiled with were nothing short of blasphemy. He was OPTHALMIC The Dalai Lama, after flying from us asked to consider the prisoner's missionary work to the Chinese, eventually fled from the Chinese, in China, but he did not know whether it was in to us. The Tibetaus had not pursued their idea. China he had learned these vices. He sentenced with sufficient thoroughness either in an activ the prisoner to five years' penal servitude.

GLASS THAT WILL NOT BREAK. Baccarat, France, has the honour of producing the first glass that is unbreakable, says Success. The new process has been successfully applied to the manufacture of lamp chimneys for use in coal mines containing much fire damp. The glassmakers of Baccarat have also succeeded in increasing the elasticity of the

nesia and oxide to the ordinary crystal glass. "HOW MEN PROPOSE IN AMERICA."

solemnized .- Exchange. BOSTON CULTURE.

Bostonian culture extends even to the lowest classes. There is a story told of a tramp charged with drunkenness in a New York court, who gave his birthplace as Boston. "Indeed," said the magistrate, "yours is a sad fall, And yet you don't seem to thoroughly realise how low you have sunk." The prisoner started as if struck, and exclaimed. "The disgrace of arrest, the mortification of being thrown into a neisome dungeon; the publicity and humiliation, of trial in a crowded and dingy court-room I can bear; but to be sentenced by a police magistrate who splits his infinitives is indeed the last blow."

THE SPELL OF ST. ANDREW'S Addison's Will Wimble excused himself for his orthographical deficiencies by saying that cellaneous collection of foodstuffs, such as yams, he "spelt like a goutleman." St. Andrews. that ancient seat of learning, may be glad to over their back, and in many instances a podgy know, the Edinburgh Dispatch says, of Will's infant, in nature's garb, is perched on top of the plea after being pilleried by a Cockney for the provisions. If the women are accompanied by spelling of some of its notice-boards. In one their husbands you will find these gallant braves of the churches, it seems, there is an intimation dressed in masculine authority and a native that services are held at certain hours every spear slowly leading the way or lessurely follow- bring the various docks up to present requirea painted notice that "The public are requested | courts to settle family disagreements among the | diate construction are : London Docks, £33., 00; to keep off the grass." > memorial window" in the ancient church of St. Age. Helen, Bishopsgate. A SCIENTIFIC WATER-FINDER. A scientific water-finder, by Mesers. Mansfield. & Co., Liverpool, has been put to a practical test by the Agricultural Department of Western

India, who have been experimenting with it in several places in the Bombay Presidency with favourable results. The instrument is described as consisting of a magnetic needle suspended over a coil of wire; and on the principle of electro-magnetic induction, the well-known preference of magnetic currents in the earth to follow the path of underground streams is taken advantage of. The degree of oscillation of the magnetic needle indicates the strength of the underground streams. In practice in the Bombay presidency it is said the springs feeding wells were traced to considerable distances; near dry wells the instrument indicated no water or springs in the neighbourhood of such wells. The instrument, however, would not not near buildings, under trees, or during the rains when the soil is saturated with water. The cost is about Rs. 750.

RELIGIOUS PROCESSION ATTACKED IN PORTUGAL.

The Times correspondent at Lisbon telegraphing on February 7th as under: -Small-pox having invaded the town of Castello Branco with considerable virulence a group of extremely hard, in the ends of which splints of religious inhabitants yesterday held a Mass in copper or stone were fastened, as well as hatchets the Cathedral in the town dedicated to St. of both these metals. Sebastian, praying him to extinguish the Without going into the details of the order epidemic. When the Mass was over it was decided to make a procession and carry through developed, it may be said with certainty that

the town a wooden effigy of the saint. This, however, is a rainst the express instructed ledge, making use of a number of things unknown tion of the local civil Governor, who had already to us to-day. They knew the dangers of free refused to allow the procession. In the main, exposure of wounds to the open air, they could street the cortege was met by a group of Re-easily distinguish rhoumatism, ague, fover, publicans, who objected to the procession. A cerebral disturbances, mental aberration, &c. conflict ensued, and at the order of the civil Fragments of flint sharpened to a point were Governor a force of cavalry proceeded to the used for bleeding and excising, and flint sharscene to re-establish order. Arrests were effect- pened on the edge for other purposes. Lastly, ed, and 18 prisoners arrived at Lisbon by the they possessed a perfect process for the mumnight train yesterday. H wever, only five have mification or the placing of the dead body in been detained in prison, the remainder having the same condition as those of the Egyptian been dismissed.

MATRIMONIAL AFFAIRS OF THE PAPUAN NATIVES.

MAN THE SUPERIOR ANIMAL

At a meeting of the Royal Colonial Institute the Hon. J. G. Jenkins read an interesting paper on Papua and the Papuaus After referring to the magnitude of Papua, which is more generally known as British New Guines, he dealt with the life of the natives, pointing glass. This they accomplish by adding magout that different villages and localities have their own industries, taking their goods from one part to another to trade. The natives differ Fifty telegrams sent to her while she was on | in stature and colour. In the east end they are a train bound for New York to take a liner to small and lighter in colour than they are in the Europe won Miss Leslie Miller of Chicago as a west, and are much ensier to civilise, although bride for Lawrence Critchell, nephew of a the western tribes, when once tamed, turn out Chicago banker. Critchell was on a trainfollow- to be superior workers, and are more intelligent. ing the object of his affections. Miss Miller The "Kiwai," as he is called, is frequently hesitated until the receipt of the affect placed in charge of a large number of workers telegram, when she capitulated. Critchell as an overseer, for which position he gets better correled her as the steamship on which she had pay than the ordinary native. This proves that taken passage was about to sail, and she returned | he is rapidly acquiring English civilisation. with him to Chicago, where the marriage was When the natives are young they are quick

to learn, and can be taught almost any kind of work, and even up to the time of their marriage they are willing to learn. After marriage their ambition and intellectual devel opment appear to cease; one of the reasons for this seems to be that the woman does most of the work, while the man-being the superior animal-can see no necessity for further exertion. He plays the part of her protector to perfection: while she digs in the garden he leans against a tree with his spear in his hand, apparently prepared to keep off intruders, but really because it is easier than doing the digging. Their wants are small, and they generally take no thought for the morrow-sufficient for the day is the food thereof, so long as the woman provides it. Women are frequently seen carrying a misbananas, and sugar-cane, in a net bag swung

"Saboth," while on the venore ble links there is ling. There is no necessity for expensive divorce | ments, The estimates of cost of works for immeor does not cook well or do her garden work nil; Albert Dock, nil; South Albert Dock, properly, he simply turns her out. They show evidence of having healed, and that the person had lived a long time after the operation was performed.

ODJECTS OF THE EXPEDITION.

The expedition was in charge of Dr. Alex Hrdlicks, Curator in the Smithsonian Institution at Washington. The main object of the expedition was to proceed to Argentina and Peru in search for evidence as to the existence of geologically ancient man - of evidence that man did inhabit the world, and particularly North and South America, long before we have any history setting forth this fact.

The second object was to make such a collec-

> WEAPONS OF ANCIENT PERUVIANS. If we take into account the class of offensive vespons used by the ancient Peruvians in their terrible conflicts, almost hand to hand, it will easily be understood that compound fractures of the skull, with depression of its bony plates, must have been common. In fact, they were accustomed to throw stones of round or irregular shape to great distances, with high velocity, by means of a sling.

They were also armed with large wooden clubs

in which the different civilisations of Peru were the aborigines possessed advanced medical knowTHE PORT OF LONDON. GREAT EXTENSION SCHEME.

The programme of the proposed development of the London Docks and of the construction of new works in the Port of London has been submitted by the General Purposes Committee to the Port of London Authority, who have taken it into consideration without, however, arriving at any decision with regard to any of the proposals up to the present.

Since 1886 nothing has been undertaken in the Port of London to meet the continuously-increasing size of vessels. About 15 months ago a scheme for remodelling the Albert Dock was introduced and a minor part was sanctioned, but as regards the remainder the Authority decided. that the consideration of plans involving the expenditure of large capital sums should be deferred until a full and complete examination of the whole range of possibilities of dock reconstruction and development throughout the Port had been considered The proposals which the Authority now have.

before them, and which came through the General Purposes Committee from the able engineer, Mr. F. Palmer, embrace apparently all possible improvements, including the reconstruction of existing dooks and the provision of new dock accommodation. Lord Devenport, the Chairman of the Port of London Authority, appropriates these proposals into three categories: (1) The primary, or ugent programme, embracing works necessary to be carried out without delay in order to give the much reeded increase of accommodation; (2) the secondary JE programme, comprising such works as given a continuance of the normal growth of trade in the port-will be necessary by the time the first programme is completed; and (3) the third, or contingent, programme, which will largely depend upon eventualities.

IMMEDIATE EXPENDITURE OF NEARLY £4,000,000.

In submitting the scheme to the Port Authority, Lord Devonport for the present deals with what he describes as the primary or urgent programme only. In this connection he points out in detail the work required to be done to for this, including the cost of some of the works recommended for immediate construction. I £14,426,700, including London Docks, £602,000; West India Docks, £1,105,000; Mill all Docks, £747,700; East India Dock, £268,000; Victoria Dock, £1,305,000; Albert Dock, £615,000; South Albert Dock, £2,586,000; North Albert Dock, £4,350,000; Tilbury Dock, £2,618,000; Tilbury passenger landing stage, £230,000. Lord Devenport points out that the secondary

programme must be a matter for future con-

sideration, and he adds that it is quite possible that much of the secondary programme may be subject to considerable modification before the time comes for giving effect to any part of it. In conclusion Lord Devenport says : - " The task we have to grapple with is not usimple one. We have to make good the accumulated arrears of development occasioned by 25 years of stagnation. We have also to take a bold and long view of the possible needs of the future. As to how far shead our conceptions Discoveries relating to man thousands of will carry it is impossible to say; but size of vessels. I am confident. This programme It is often said there is nothing now under | when completed will containly bring the Port the sun. This is well illustrated by these re- to the foremost position. > It is understood that it will take several years to carry out the works recommended for immediate construction.

INDIANS AND MILITARY SERVICE.

The honorary secretary of the All-India Moslem League has submitted to the Secretary of State for India on behalf of the League a asoned representation calling attention to the growing aspirations among the higher classes of the martial races of India for a share in the defence of the Empire, and to the desirability of increasing the opportunities open to Indians of good position for the military service of the Crown. Whatever method of meeting the claims of native officers may be adopted, the time is more than ripe for generous concession to the loyal sentiment and legitimate aspiration of classes of the community which are steadfast in their support of and proud bolief in, the British connection with India."

civilisation in the Bonin district. Dr. Frobenius makes a vicious attack upon the British officials of the Colony for depriving him of the fruits of his labours. Writing from Illai on December 7, Dr. Frobenius says:

West Africa I have found traces of a high and extremely ancient urban civilisation. I am having excavations made and am searching the whole neighbourhood. I have unearthed wonderfully worked quartz pillars, remains of granite figures a yard high, burnt clay portraits of classic beauty, and vessels and fragments of pottery splendidly overlaid with glass of various colours. The main thing is that I have found the place where all the treasures are buried about three yards below the surface. Most of the things are in pieces, but so beautiful that they can properly be compared with relics of classical antiquity."

In another letter the explorer mentions that his chief find is a hellow bronze cast of a head so beautiful that anyone would set it down as classical work but for the fine tattooing with which it is covered. Dr. Frobenius says of his discoveries: "I have thus proved in the broadest sense that my Atlantia theory is cor-

In a third letter, dated ." Ibadan, January 2." Dr. Frobenius writes :

"The news of my discovery of a city of ancient Atlantis reached the English. My letter of December 11 was seized and sent back to me. On December 16 a high official suddenly. appeared. They tried to take all my finds from me on the pretext that the natives had stolen them from each other and soid them illegally to me. Excavations were forbidden, and everything ancient must remain in the country and more to the same effect. The same brutal bar-barism with which Sven Hedin, Carl Peters, and the German steamer Bunderath were treated. Most of what I had won they took, including the bronze head, fragments, and postsherds. However, thank the Lord, I

am smarter than a good many people and promptly buried the good clay heads. They are saved. The German learned world reserves judgment as to the value of Dr. Frobeniuss discoveries, especially his claim to have found the lost Atlantis. Benin bronzes are nothing new. Dr. Frobenius is known as an eager advocate of the theory that Atlantis really existed and is to be looked for somewhere in Africa-Renter.

SEA POWER IN THE PACIFIC.

THE GALAPAGOS ISLANDS.

In regard to the Galapagos Islands, which the United States are at present proposing to purchase as a naval base, it may be recalled that although the group has been well enough known to Europe since Darwin visited them on his memorable voyage in the Beagle, recent events have given them further prominence from the strategical point of view. More than twenty-five years ago their value in connection with the Panama Canul was foreseen, and a Governor was appointed by Ecuador, which had annexed them as far back as 1832, and still maintains a convict settlement there. They are mainly interesting to Great Britain and her Dominions Beyond the Seas, as a Morning Post representative was reminded yesterday by a gentleman with a special knowledge of conditions on the Pacific Coast, by reason of the position they occupy. They lie on the route to the Dominions that will be opened out by the Panama Canal, and they would provide an excellent coaling station Their possession by the United States would involve not only an American outpost covering the Panama Canal, but also the prevention of their occupation by

any possible hostile Power.

The Archipelago consists of several islands, some of which attain an elevation of 2,500ft. The total land area is a little under 3,000 square miles, but much of the land, being of volcanie origin, is bare and desolate and unproductive. Darwin said that it reminded him of the waste heaps to be seen outside the ironworks of Staffordshire. The isolation of the islands from the neighbouring continent has led to the production of many curious species which offer problems for the study of naturalists. The islands are most famous, perhaps, for the giant tortoises, the seven species of which are indigenous, and each is confined to its own islet. Some of them require as many as eight men to lift them. Darwin was not content with what the Governor of the islands told him about these giant reptiles, but experimented for himself in ascertaining the rate at which they travelled over land, "allowing a little time for meals," as he said, and he also tested their hardness of hearing by stealing up behind and stepping on to the reptile's back. The islands also contain a peculiar genus of lizards, and half the flora is unknown elsewhere. Many tropical fruits are found growing wild. The commercial value of the islands lies in the exports of guana and orchilla moss, which are sent chiefly to Europe. The archipelago has been the scene of many scientific investigations, one of which, about fourteen years ago, was specially undertaken at the instance of the Hon. Walter Rothschild.

WEATHER REPORT.

On the 5th at 11.55 a.m.—The barometer has risen quickly in E. Japan and fallen over China, particularly on the El. coast.

The depression lying over the Yangtze valley Wholesale Wine&Spirit Merchants. s progressing slowly Eastwards. Pressure is highest over S. Japan and adjacent waters.

The N.E. monsoon is temporarily interrupted and moderate S.E. and S. winds may be expected over the China Sea. Hougkong rainfall for the 24 hours ending CHILDREN

at 10 a.m. to-day, 0.00 inches. The forecast for the 24 hours ending at noon

to-day is as follows :--Hongkong & Neighbourhood ... (*)

Formosa Channel Same as No. 1. South coast of China between | Same as No. 1. Hongkong and Lamocks.

South coast of China between | Same as No. 1. * S. winds moderate; squally, probably some showers.

A SOCIAL AND POLITICAL NOVEL OF ABSORBING INTEREST. By CHAS. J. HALCOMBE. (Formerly of the Imperial Chinese Custome

Service. Author of "The Mystic Flowery Land," etc.). THE VOLUME which consists of 146 Pages, and includes a Sketch Plan of

historical interest showing the disposition of the Forces at the battle of Kweilin, is dedicated to Sir ROBERT HART, G.C.M.G., and Dr. A RENNIE. Its description of Chinese Social Customs

and Superstitions, combined with the insight it gives into political conditions in China, makes "CHILDREN OF FAR CATHAY" an excellent volume for presentation to friends at Home. Well bound in Yellow Cloth with Chinese Emblem in Gold.

PRICE \$3.50 To be obtained from Messrs. KRILY & WALSE LTD., Messes. BREWER & Co., or from the Printers and Publishers, the "Hongkone
